## **Appendix 5: Animal Usage**

In order to assist the site visitors in their evaluation of the animal care and use program, please provide the information requested below. Information should be provided for all animals approved for use in research, teaching or testing, including those which may be used or housed in laboratories outside the animal care facility. Of particular interest is information on those animals which are used in research projects involving recovery surgical procedures, behavioral or other testing requiring chairing or other forms of restraint, or exposure to potentially hazardous materials. An alternate format is acceptable as long as the information requested is provided.

| Project/Protocol<br>Title | IACUC/OB<br>Number | Principal<br>Investigator | Species | Total<br>Number of<br>Animals<br>Approved | Pain &<br>Distress<br>Category<br>(1) | Special Considerations (use checkmark if applicable) |            |            |           |            |            |
|---------------------------|--------------------|---------------------------|---------|---|---------------------------------------|--|------------|------------|-----------|------------|------------|
|                           |                    |                           |         |   |                                       | SS<br>(2)  | MSS<br>(3) | FFR<br>(4) | PR<br>(5) | HAU<br>(6) | NCA<br>(7) |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |
|                           |                    |                           |         |   |                                       |  |            |            |           |            |            |

<sup>(1)</sup> If applicable, please provide a description / definition of any pain/distress classification used within this Appendix in the space below. If pain/distress categories are not used, leave blank.

- (2) Survival Surgery (SS)
- (3) Multiple Survival Surgery (MSS)
- (4) Food or Fluid Regulation (FFR)
- (5) Prolonged Restraint (PR)
- (6) Hazardous Agent Use (HAU)
- (7) Non-Centralized Housing and/or Procedural Areas (NCA), i.e., use of live animals in any facility, room, or area that is not directly maintained or managed by the animal resources program, such as investigator laboratories, department-managed areas, teaching laboratories, etc.
